

Data centers and technology infrastructure

PRST's specialized solutions and expert tradespeople can help with mission-critical construction projects of all sizes.

Building a stable future

With the growing demand for development of new data centers and essential facilities, finding qualified skilled workers can be challenging. PeopleReady Skilled Trades (PRST) provides experienced tradespeople to help businesses like yours complete projects on time and under budget.

We specialize in screening and hiring tradespeople of all skill levels, matching them with contractors across the country. Our experts understand the unique safety, quality and efficiency needs of high-tech construction projects.

Why choose PRST?

Specialized expertise: Our local recruiters are experts in sourcing, screening and testing tradespeople with specialized knowledge in all phases of construction.

Qualified tradespeople: Every tradesperson undergoes an extensive interview process with in-depth assessments so you can be confident they will get the job done right.

Reliability: We've honed our craft to ensure we deliver dependable tradespeople who show up on time with the right tools for the job.

A nationwide workforce: With 50+ locations and a traveling workforce, our recruiters are ready to connect you with the best skilled workers for your project.

A partner you can count on: Backed by the power of TrueBlue (NYSE: TBI), we offer unparalleled resources and experience.

Proven commitment to safety

At PRST, we prioritize worker safety with our BeSafe and Right Match Dispatch programs, free OSHA 10- and 30-hour training, and provided PPE. We go the extra mile to ensure we deliver safety-conscious, high-standard workers who respect your jobsite and fellow workers.

We Are Ready™ to fill your open positions
