

# BuildUp by PRST

Workforce solutions tailored to help your business scale

Finding the perfect tradespeople for your projects can be difficult, time-consuming and expensive. But it doesn't have to be this way. PeopleReady Skilled Trades (PRST) can help you build up your business by managing the recruitment and onboarding of your skilled workers.

## Are you struggling with:

- Lack of time and bandwidth to recruit tradespeople with the right skills and experience?
- The amount of time it takes to onboard once you find the right person?
- Uncertainty with the volume of skilled workers needed short or long-term?
- Lack of tradespeople recruitment expertise?
- Hiring tradespeople who have previously worked for your organization?
- High turnover within the first 90 days due to lack of culture fit?

## With the BuildUp Program, you will gain:

- Flexibility to scale your workforce up or down quickly based on business needs
- Reduced administration, compliance and financial risk of hiring or laying off full-time employees during uncertain times
- Ability to assess skilled workers' performance and culture fit prior to a long-term hire
- Reduced rates for any tradespeople referred to, hired and placed by PRST
- Peace of mind know we take safety seriously, with OSHA 10- and 30-hour training offered at no cost and standard PPE provided to all workers

Our BuildUp program is designed to reduce the burden of hiring and training qualified tradespeople. Partner with PRST. We'll make sure you get the workforce you need.

## \$7,000

Estimated cost for a contractor for every bad hire, including lost productivity, rehiring and onboarding

## 500,000+

Additional skilled tradespeople needed to address the current labor shortage
