

Industrial and manufacturing facilities

PRST's specialized solutions and expert tradespeople can help provide flexible staffing for manufacturing and industrial construction projects.

Building industrial innovations

Companies looking to onshore manufacturing facilities, especially in semiconductors, EV battery production and advanced manufacturing, need qualified skilled workers to support those projects. PeopleReady Skilled Trades (PRST) provides experienced tradespeople to help businesses like yours complete projects on time and under budget.

We specialize in screening and hiring tradespeople of all skill levels, matching them with contractors across the country. Our experts understand the strict safety, quality and compliance needs of industrial and manufacturing construction projects.

Why choose PRST?

Specialized expertise: Our local recruiters are experts in sourcing, screening and testing tradespeople with specialized knowledge in all phases of construction.

Qualified tradespeople: Every tradesperson undergoes an extensive interview process with in-depth assessments so you can be confident they will get the job done right.

Reliability: We've honed our craft to ensure we deliver dependable tradespeople who show up on time with the right tools for the job.

A nationwide workforce: With 50+ locations and a traveling workforce, our recruiters are ready to connect you with the best skilled workers for your project.

A partner you can count on: Backed by the power of PeopleReady, a TrueBlue company (NYSE: TBI), we offer unparalleled resources and experience.
